CATCA launches new website

After many months of hard work and dedication, we are very pleased to announce the launch of our brand new catca.ca website! Our goal with the new website is to provide our members an easier way to learn about the Union and its role to controllers.

The new site will be live mid-day today, Monday, December 7, 2015.

The website has been redesigned to improve user friendliness and appeal by using a clean, streamlined design that is very easy to navigate. It contains integrated social media buttons to foster improved communication with our members. We will be constantly updating our content with helpful information, articles, and Association B&Fs in the News section.

The member log-in process has also been simplified. You can request access by completing the **“Request Access”** form in the **“Member log-in”** button. Your username and temporary password will be sent to you shortly thereafter.

We hope you enjoy the fresh new look, easy log-in process, and access to important CATCA information.

In solidarity,

Peter Duffey
President

Doug Best
Executive Vice President
