BRANCHES & FACILITIES**

### **TMU West Closure**

Yesterday, November 4, 2020, NAV Canada provided CATCA with notice of intent to close TMU West (VR ACC) and move the work into TMU East (YZ ACC). This was a disappointing decision as the Company had assured our members this action was not being planned as recently as last year. NAV Canada has acknowledged this is contrary to what they had previously indicated but was a reactionary step to the COVID situation and a cost saving measure.

As the election is ongoing for the Pacific RVP, the National Executive will be working with the Company to protect the rights of our members in TMU West, and ensuring their futures are safeguarded. It is anticipated the move will be completed in the Spring of 2021.

On Behalf of the Executive Board;

Doug Best  
President

Scott Loder  
Executive Vice President
