Bargaining Bulletin #6

Your CATCA Contract Committee met with NAV Canada this week in Vancouver for the third full week of contract negotiations.

The bulk of non-monetary items have been presented by both sides and the process of examining and debating those proposals has begun. As such, progress continues to be measured and deliberate.

As always, the bargaining process is confidential and we remind the membership that no issue is completely settled until your committee presents a complete package for ratification.

The next round of bargaining is scheduled from February 27 to March 3rd in Ottawa.

On behalf of the Contract Committee,

Nick von Schoenberg
President

Scott Loder
Executive Vice President
