Introducing Our New Mobile App!

Discover Our Mobile App- Our new mobile app brings CATCA to your fingertips, ensuring that you stay connected wherever you go.

Download it for the Apple iPhone by [clicking here](#).

Download it for the Google Android by [clicking here](#).

The app comes complete with these features:

 **Easy Access Newsfeed**

- Quick access to our newsfeed, specifically formatted for a smartphone.

 **Direct Messaging**

- Message your friends at CATCA much like the Facebook messenger feature.

 **Alerts**

- Have the option to receive notifications, and alerts when there is new information to be viewed on our website.

 **Easy Access to Resources**

- Members will notice that our CATCA safety occurrence reporting form is boldly displayed on our app in red. That's because ensuring safety is the most important thing we do as a union and as a profession.

Nav Canada has a well-developed SMS and a variety of means to report safety concerns. Nevertheless, we felt it was important to include our own form. There are times where certain forms and processes may be unclear or cumbersome and we do

THE VOICE OF CANADA'S AIR TRAFFIC CONTROLLERS | LA VOIX DES CONTRÔLEURS AÉRIENS DU CANADA

not want anything of concern to go unreported or unaddressed. We have tried to make it as simple and easy as possible to increase reporting by members.

Our safety survey from last year revealed that members do not always have a high level of confidence regarding the safety of our system. We are working with Nav to ensure safety is given the utmost priority and that our reporting culture is strong and controller confidence in the system sound. Rest assured that every report will be addressed in the appropriate forum and brought to Nav's attention for follow up.
