2025 ATC PREMIUMS

The 2025 ATCP analysis has recently been completed for all Towers and ACC's. As per the Classification Standard, ATCP levels are based on a formula that uses a 3-year rolling average of traffic movements.

A reminder that, in 2020, CATCA and NAV CANADA negotiated a Letter of Understanding freezing ATC Premiums for all Towers/ACC's until such time that annual traffic numbers for a unit exceed those of 2019. As of December 31, 2024, over half of CATCA locations still benefit from this ATCP protection.

After logging in, all Tower and ACC updated ATCP levels can be found on the [CATCA](#) website under *Resources > Members Only > Unit Classification*.

Please direct any questions to your Regional Vice President.
